PROFILE

Lead Decision Scientist with 5+ years shipping production ML and AI systems end-to-end across healthcare, consulting, and manufacturing. Delivered **\$35M+ in measurable business impact** through LLM-powered products, predictive modeling, and optimization. Lead cross-functional teams of 20+ (engineering, IT, business) and drive technical strategy with SVP/C-suite stakeholders.

- **Technical:** Python, SQL (BigQuery), GCP, LLM/RAG/MCP/Agents, CatBoost & XGBoost, Deep Learning, Causal Inference & A/B Testing, Mixed-Integer Programming, Time Series, Project Management
- **Leadership:** Executive storytelling & roadmap, mentorship, cross-functional product partnership, technical hiring

PROFESSIONAL EXPERIENCE

CVS Health

Jersey City, NJ

Lead Decision Scientist

Mar 2026 – Present

- Product owner of an enterprise GenAI insight engine; lead a cross-functional team of 20+ (data engineering, IT, business stakeholders) and drive prioritization with SVP-level stakeholders supporting a **\$300M cost-of-service reduction target**
- Designed and shipped a CatBoost risk model that flags orders likely to become bad debt pre-shipment; quantified incremental value via A/B testing, preventing **~\$3M in annual write-offs** through proactive intervention
- Lead 2 LLM-driven patient intervention workstreams: referral-cancellation root-cause analysis, with incremental value validated via A/B testing, lifting conversion by **\$10M/yr**; and clinical-note mining to surface adherence drivers (**\$20M/yr**)
- Partner with SVPs and product leadership to define the AI roadmap, evaluate build-vs-buy tradeoffs, and set technical standards for LLM evaluation across the org
- Designed interview frameworks and assessment rubrics for Senior DS hiring; conducted 30+ technical interviews

Sr Decision Scientist

May 2024 – Mar 2026

- Productionized a GenAI system that reads patient EHRs to auto-populate prior-authorization (PA) forms end-to-end, **cutting turnaround time 60%** and delivering **\$3M in annual EBIT**
- Drove **\$1M+ in annual savings** through benefit-verification analytics, leading projects across copay-assistance threshold optimization, rejection automation, and task-time reduction

Kearney – Data & Analytics Practice

Chicago, IL

Sr Management Consultant

Jul 2022 – May 2024

- Designed and delivered a GenAI insight platform for a Fortune 500 IT company, **reducing C-suite decision time by 90%** through retrieval-augmented insights over internal data
- Identified **\$2M (16%)** in indirect logistics savings for a discount wholesaler by modeling cost scenarios across **70+ carrier RFP responses** in Python and delivering customized negotiation feedback to each carrier
- Led the analytic workstream in a 4-wall assessment for a leading outdoor retailer, delivering baseline, labor, cost-to-serve, and benchmark analyses that identified **\$5M in annual cost reduction opportunities**

Earlier Experience

Data Scientist at SIL International (Linguistic NGO Affiliated with United Nations)

2019 – 2022

- Devised a novel deep learning algorithm to optimize semantic domain selection for rare-language translation models, **cutting training time by 85%+** and replacing prior reliance on human translation

Research Team Lead at Shoetown Group (Shoe Manufacturer for Nike)

- Led a team of 5 to optimize workstation layouts using Python and Gurobi (sub-1-minute solve time), minimizing assembly costs; automated the inventory system, reducing data entry time from hours to minutes (**~37x faster**)

EDUCATION

Purdue University, Krannert School of Management

West Lafayette, IN

M.S. in Business Analytics and Information Management (STEM)

- Academic Honors | Merit Scholarship Recipient

National Cheng Kung University

Tainan, Taiwan

B.S. in Industrial and Information Management

ADDITIONAL

- Certification: HackerRank SQL (Advanced); 2023 Kearney Sustainability Scholar; Sustainable Supply Chain Management (Cambridge Institute for Sustainability Leadership); Product Management (Stanford Online)
